

[Via email from Debbie Pedigo]

I have an IT Auditor position available in San Antonio. They are seeking a person with experience in: Sarbanes-Oxley IT Control Reviews, disaster recovery, firewall configuration, SAS70s, FFIEC guidelines, internet banking, SQL databases, network security, and analysis of Regulation-E disputes system. Traveling will be light, only in Texas.

Must be a US Citizen

This is a full-time employment opportunity with great benefits.

About Kenmark Bullock Personnel: Kenmark Bullock Personnel provides an extensive range of Information Technology staffing services. Our recruiting professionals maintain a commitment to deliver the best-matched, most qualified candidates by working one-on-one with our clients to ensure your complete satisfaction in fulfilling your staffing needs.

About Me: I have a strange combination of talents of programming and recruiting. I have over eight years of executive and computer recruiting. I also programmed and built websites in JSP, ASP/.Net, PHP, HTML, CSS, was a Java programmer for over twelve years. I understand the software development lifecycle and what a computer specialists' role is in the business process.
